Guidelines for 7th Grade Registration for Girls or Boys Athletics

Dear Parents/Guardians of 6th Grade Students,

Student registration for 7th grade courses will begin on February 18, 2020. Seventh grade students are required to complete a full academic year of a Physical Education course during the 20-21 school year.

Any student may register for the general PE class, however, there are guidelines in place for registration in the 7th Grade Athletics program.

To register for Athletics in the 7th Grade, a student must meet the following criteria:

- Girls and Boys must complete the “What is Athletics?” unit during their 6th grade PE class time (The “What is Athletics?” program is supervised by a PE teacher and all students have the opportunity to participate with parent permission). This is a six week unit.
- Boys must participate in Football and/or Cross Country to register for the Athletics course.
- Girls and Boys must have their online paperwork filled out in Rank One between the dates of **April 1st- May 1st** before they will be registered for the Athletics course.

Parents must fill out 4 online forms. Cypressfairbanksisd.rankonesport.com

The 4 forms are:

- UIL Signature Page
- CFISD-Emergency Card Information
- CFISD-ECG Consent
- Field Trip

If a student **does not** meet all requirements but wants to participate in Athletics as a 7th grader in Volleyball or Basketball, they must try-out and make the team before Athletics will be added to their schedule (Volleyball-Fall / Basketball-Spring) pending receipt of an Athletic Physical and Rank One documentation.

All students enrolled in the Athletic course must have a current Athletic Physical on file with CFISD when starting the first day of school. Students without an Athletic Physical on file will be removed from the class and placed in PE.

All students enrolled in the Athletic course must participate in all activities assigned by the coach during the sport competition season, as well as during off-season training. A student may be removed from Athletics based on participation effort, attitude and/or behavioral concerns in Athletics or any regular classroom.
